DETAILED ACTION

1. Claims 2-4, 6-17 are presented for examination. Claims 86-101 have been cancelled.

Claim Rejections - 35 USC § 102

2. Rejections withdrawn in light of the amendment.

Allowable Subject Matter

3. Claims 2-4, 6-17 are allowed.

The following is an examiner's statement of reasons for allowance:

Neither Collins nor the prior art of record, taken either alone or in obvious combination disclose method, system, apparatus, and medium for dispatching of at least one product lot for processing to manufacturing equipment within processing stages of a manufacturing line, having all the claimed features of applicant's instant invention, specifically including the calculation of the priority factor using formulae of claims 2 or 6 in combination with the limitations that if groups of first following pieces of manufacturing equipment have a criticality factor of a first level, said priority factor has a first priority level, and if groups of first following pieces of manufacturing equipment are of a first type and if groups of second following pieces of manufacturing equipment are of a second type, said priority factor has a second priority level. It is for these reasons that applicant's invention defines over the prior art of record. Claims 3-4, 7-17 depend from claims 2 or 6 and are therefore also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
